

"Can you create an extremely rusted metal material?"

"Sure! I'll watch how experts create similar materials, take notes, and then make the material myself."

Procedural Sequencing

"...change the Musgrave type to multi-fractal ... turn the scale to 1.3 ..."

"... use the hex value 7F7C7A ..."

Tacit Artisty

Physical Reasoning

"... I don't want rust to be metallic...so I plug the height value into the metallic..."

"Give material another layer of rust...add the noise texture ...add color ramp right here..."

Compositional Hierarchy

"Done! How does this rusted metal material look?"
